Thanks, Sam.

John and Karl have the details, but the **RCRA order is final and effective, and**, as we understand it, **Karl's program is in negotiations with the Army and Louisiana Military Department on the CERCLA 106 order on consent.**

I'll defer to them.

All –

First, thanks to OECA's Nick Conger and EPA Region 6's David Gray for quickly preparing our short "desk statement" on Tuesday (7/29) in response to the Army's letter the day before on the Agency's RCRA 7003 order at Camp Minden (LA). It appears that EPA's message of standing firm on that order is getting out.

In addition to the short desk statements that Nick, David and EPA's communications staff will be using, I've attached a longer background narrative, compiled largely from previous materials, which we can use internally as a reference document. It has a link to the Region's order and the EPA's 7/16 determination affirming it. It also includes some information about the Agency's enforcement authority in this context, which you should be aware of but also hold close.
